Dear Member

COMMENTS ON ISO/CD 10368 AND PROPOSALS FROM ISO/TC 104/SC 2/WG 1

Further to the circulation of document N260 and enclosures, I have now received proposals from the Convenor of WG1 in response to the comments circulated in document N257. These are enclosed as document N261.

Unless I hear from you before **23 February 2004**, I shall assume that the responses in the right hand column of N261 are approved and I shall arrange for these modifications to be made to the draft in preparation for the DIS Enquiry.

Yours sincerely

DR M J LEGGETT
